Gary Adams
100 Elm Drive
Kansas City, KS 66113

Dear Mr. Adams:

Thank you for submitting your proposal to paint a mural on the outside west wall of the Channel View Library. We appreciate the effort you put into writing the proposal.

The Library Board receives many proposals every year from local groups and individuals interested in helping the library serve the needs of our community. We value the dedication and experience shown by the authors of these proposals. As a result of our current funding levels, we were able to accept three proposals out of the 100 proposals we received this year. All three of these proposals addressed issues related to safety and security in the library.

Your proposal to paint a mural has great merit. However, our focus this year is on safety concerns. As a result, we are not able to accept your proposal.

Next year, we are anticipating that our funding will increase by 30%. We also may be in a position to consider more proposals related to the beautification of our public spaces if we receive funds from a new government initiative. You may wish to consider applying again next year.

Thank you, Mr. Adams, for sharing your proposal with the Channel View Library. If you require information about how to apply next year, please check out our Web site at www.channelviewkansas.com

Sincerely,

Janice Piedmont
Chair: Channel View Library Board
